

Starboard elevation, B-24J (typical)  
Wing omitted to show detail

Usual location of U.S.A.A.F. serial.

Sipstream deflector.

This window larger and bulged on some models.

Some U.S.A.A.F. B-24's had a 'slab' of thick Armour plate attached externally to protect the flight deck.

Trailing aerial outlet.

**B-24J-TYPE-5**
